...at the end of which time the student is qualified for a well paid position as a skilled watch repairman. However, we recommend taking the extra six months of advanced training, thereby completing the Master Watchmaking course. There are no age limits. We have students from 16 to 62 years old.

## *Entering Requirements-Beginner's All Practical Test...*

We teach you how to take a watch apart and assemble it again within a two hour period. This test will prove to anyone concerned whether he or she has the mechanical aptitude to do this work.
